### **Awapuhi Wild Ginger, Our Luxury Line**

Fall is the perfect time to reflect, reorganize, and realign your life to fit your goals and aspirations! That's why at **The Cachet** we are renewing our efforts to give you glorious hair! Our most popular hair care line is **Awapuhi Wild Ginger** because of the high quality, fragrance, and amazing results we obtain by using it every day. For the months of September and October we are offering **Awapuhi Wild Ginger** hair care products for you to use at home for **20% OFF** the usual retail price! (Does not include sets because they are already discounted.) If you have not tried them yourself at home, find out why this is our best selling hair care line.

Additionally, the fabulous **Awapuhi Wild Ginger** in-salon treatments are **half price** for September and October! Usually priced at \$33, these treatments are now \$16.50 (does not include cost of blow out.) The **Hydratriplex Treatment** is for dry, frizzy hair lacking moisture. The **Keratriplex Treatment** is for weak brittle hair, lacking protein. Ask your Designer which one is best for you.

The time you take to pamper your hair is worth the investment to bring strength and shine back into your hair.

### **What's In Style for Fall?**

One of our jobs is to keep you apprised of hair fashions being shown on the runways and at major hair shows we attend. We are seeing softer colors with less contrast than before. The bright fashion hair colors of summer will be more tone-on-tone with solid colors and less contrasting shades. Women with curly hair are embracing their natural curls, and loose waves continue to attract attention. Deconstructed waves are timeless and never go out of fashion. Keeping the ends a little straight, the waves are uneven and not supposed to be perfect for a more modern look. Making a surprising come-back are the 80's-trendy accordion plastic headbands, stretch headbands, claw-clips and **the scrunchie!** Oh my!

***Our newest Designer, Kalynn, has completed our apprenticeship program and is now taking appointments! She's got talent, skill, and a fabulous future at The Cachet!***

## Updates in our 30th year

Linda and Emily are always evaluating how we can improve our business to bring the best customer service to you. As we embark on our 30th year in business, we have plans to make this our best year ever! Educating our staff, embracing technological advances, and a little redecorating are on our list of goals this year. Our design team is heading to the Cleveland Fashion Focus hair show to learn all the latest styles and techniques to bring to you! Also, we offer in-house quarterly classes to keep our design team updated on new techniques and products.

Soon, we are going to try out a texting service to confirm appointments.

### **Make sure we have your cell phone number for text confirmations!**

If you do not want text confirmations we will continue to call to remind you of your appointment. We will also have the option of confirming your appointment through e-mail, if you prefer it. Additionally, we are looking into on-line booking for our regular clients, and upgrading our web-site.

Not sure yet when that will happen!

Although we have only been in our new location for 5 years, we are ready for a redecorating update.

Expect some small, refreshing changes at our salon in the coming year.

Whatever we can do to make The Cachet better, we will do it!
